Carbon Management

Expense & Data Management

Sustainability Reporting

Data Management & Analytics

Accredited by: PCAF

Tanner Harris, Business Solutions Director of Sustainability at ENGIE Impact, has over nine years of experience in the energy and sustainability industries. In his role, Tanner provides subject matter expertise to support existing and prospective clients in developing, implementing, and refining science-aligned energy, water, and emissions reduction goals. His work spans from high-level sustainability assessments to building-level energy models and detailed energy conservation measures, all aimed at helping clients reduce both costs and environmental impact.

Tanner's background in engineering and data analytics and his carbon accounting credential—combined with his hands-on experience in energy efficiency—enables him to deliver practical, data-driven solutions that align with client sustainability objectives.

Tanner is a licensed professional engineer and certified energy manager.

Specialty Fields: Target Setting, Energy Management, Climate Compliance
