About Nicolas

Expertise

Renewable Energy Strategy & Roadmaps Energy Management Services
Energy Procurement Services Distributed Energy Resources Opportunity Assessment
Sustainable Resource Management Renewable Energy Solutions
Renewable Energy Procurement Sustainability Reporting

Nicolas Bradley, Director of Renewable Advisory at ENGIE Impact, is an expert in Scope 2 decarbonization through renewable electricity and focuses on matching clients' renewable electricity and carbon reduction goals with viable renewable electricity products. He developed a deep understanding of deregulated and regulated energy markets as an energy procurement analyst and utilizes this knowledge base to recommend suitable renewable options for his current clients. Nicolas has advised clients on PPAs and VPPAs, green tariff and green supply, EACs, tax solutions, and community solar and presents a business lens approach that prioritizes qualitative and quantitative value propositions for each product. He has been in the renewable electricity field for 6+ years and effectively manages projects from strategy through implementation.

Strategy, Not Silver Bullets: Building an Effective Corporate Renewable Energy Roadmap

Siloed approaches hinder corporate renewable energy adoption. Strategic roadmaps aligning financial and sustainability goals, leveraging tax credits and VPPAs, are key to overcoming obstacles and creating lasting value.
