About Jessica

Expertise

[Carbon Management](#)[Sustainability Reporting](#)

Jessica Kochik, Carbon Advising Manager at ENGIE Impact, brings over 20 years of experience in strategic business operations, data-driven analytics, and scientific research. She co-leads climate risk and disclosure services, helping clients navigate the evolving sustainability landscape. Her expertise in both qualitative and quantitative research supports a systems-level approach to climate risk assessments, global ESG reporting, and stakeholder engagement—ensuring core business growth remains central to every client's sustainability strategy.

Jessica holds a Certificate in Sustainability and Climate Risk from the Global Association of Risk Professionals (GARP), a LEED Green Associate from the U.S. Green Building Council (USGBC), and a Sustainability Excellence Associate from the International Society of Sustainability Professionals (ISSP). She has a Masters in Marine Biology from Scripps and a Bachelor of Science in Ecology from UC San Diego. She currently serves on the Events Committee of Denver's chapter of Women of Renewable Industries and Sustainable Energy (WRISE).

Specialty Fields: Climate Risk Assessments, Climate Risk Disclosures (CDP, TCFD)
