2025 Expert Insights: Stocking Stuffers

ENGIE Impact
74,798 followers

December 19, 2025

Season's greetings from the ENGIE Impact Sustainability Resource Management division!

This year, we gathered several of our dedicated experts to cover a wide range of critical topics, from the One Big Beautiful Bill Act (OBBBA) to Building Performance Standards. To celebrate the holiday season, we've gift-wrapped our collection of 2025 expert interviews.

A huge thank you to our experts! And thank you for reading Impact Insights—your support has made this year a success. Here's to a new year full of new expert insights.

Ask the Expert: Turning Utility Data into Strategic Intelligence

In June, we asked our utility data management expert, [Jacqueline Forbes](#), to break down the value of utility invoices beyond just payment amounts. Whether you're dealing with missing invoices, budget variances you can't explain, or simply wondering if there's more strategic value hiding in utility data, this conversation offers practical insights from someone who's guided organizations through these exact challenges.

The Energy Landscape Shifted Overnight

The OBBBA went into effect on July 4, 2025, immediately and fundamentally shifting market dynamics. Our energy market expert, [Peter Liska, CEM CEP](#), provided straight answers on how this policy changes portfolios and project pipelines, as well as how to adapt.

Ask the Expert: Building Performance Challenges and Opportunities

[Building Performance Standards](#) are becoming increasingly strict. To help avoid costly penalties, our energy management expert, [Matt Pittinger, PE, CEM, CEA](#), explained how these challenges can work in your favor—and how [ENERGY STAR®](#) can help.

[Read the full interview](#) to make the most out of Building Performance Standards.

Ask the Expert: Telecom Lifecycle Management

Today's quickly evolving environment presents new challenges for visibility and greater insights across telecom data. To break this down and explain how to take
