About Andreas

Expertise

[Carbon Management](#)[Sustainability Reporting](#)[Sustainable Resource Management](#)

Andreas van Giezen, Principal Sustainability Advisor at ENGIE Impact, has spent the last seven years advising global businesses on climate strategies and impact assessments, with a focus on corporate greenhouse gas (GHG) inventories and climate-related disclosures. He co-leads ENGIE Impact's CDP disclosure and climate risk assessment services and leads the in-house corporate sustainability program, demonstrating his ability to translate sustainability expertise into tangible business value. Andreas works with large corporate clients, enabling them to successfully meet their sustainability goals.

Specialty Fields: Climate Risk Assessments, Climate Risk Disclosures (CDP, TCFD, GRI)
