PCAIF Partnership

GHG Accounting

ESGs

December 9, 2025

The Partnership for Carbon Accounting Financials (PCAIF) welcomes ENGIE Impact's Sustainable Resource Management (SRM) business division to the PCAIF Accredited Partner Program. By joining PCAIF, ENGIE Impact will support financial institutions with measuring and reporting their emissions, fostering transparent, comparable, and effective action.

ENGIE Impact has a successful track record advancing sustainability initiatives through data and expertise, and is a valuable addition to PCAIF's partner network. ENGIE Impact's approach leverages established cost and usage data, converting data into actionable insights that drive cost savings, resilience, and climate performance. Their technical expertise will enable financial institutions, including those with complicated, multi-regional, multi-site operations, to align with the PCAIF Standard.

“Joining PCAIF allows us to contribute to a more harmonized, transparent future for GHG accounting practices. As financial institutions face increasing pressure to measure and disclose their impact, we're proud to bring our global capabilities and hands-on experience to help this market. We're thrilled to implement standardized, high-quality emissions accounting aligned with the PCAIF Standard.”

Paige Janson, CEO, SRM Division of ENGIE Impact
