ENGIE Impact works with corporate and industrial clients to manage their energy portfolios and make progress toward sustainability targets through the procurement of renewable energy.

Rick Margolin, Director of Renewable Advisory at ENGIE Impact, joins Hill Vaden and Sam Humphreys on S&P Global's EnergyCents podcast to discuss how companies can smooth volatility, reduce costs, and make progress toward sustainability goals by increasing the weight of renewable sources in their energy portfolios.

Strategy, Not Silver Bullets: Building an Effective Corporate Renewable Energy Roadmap

Siloed approaches hinder corporate renewable energy adoption. Strategic roadmaps aligning financial and sustainability goals, leveraging tax credits and VPPAs, are key to overcoming obstacles and creating lasting value.

Advanced Renewable Energy Reporting: Prove ROI with Confidence

As renewable energy becomes a growing part of corporate energy portfolios, the pressure to prove its return on investment is mounting. Before approving new capital projects or PPAs, financial decision-makers must understand the financial performance of existing assets and contracts.
