Accredited by: PCAF

Chris Watkins, Principal Advisor at ENGIE Impact, works with a team of subject matter experts to provide clients with industry-leading GHG emissions analysis and sustainability disclosure advising. With seven years of experience on ENGIE Impact's carbon advising team, he has implemented processes and tools based on his honed data analysis skills. Projects include GHG inventory, market-based Scope 2 accounting, CDP reporting, target-setting for emissions reduction, comprehensive Scope 3 screening and assessment, detailed emissions trending analyses, and verification.

Chris has worked with global companies across industries and sectors, including retail, global industries, and large telecom organizations. His skills include analysis and reporting to a multitude of ESG frameworks and applying GHG protocols to help set carbon baselines and identify opportunities for impactful change. He earned a Professional Science Masters in Climate Science and Solutions from Northern Arizona University.
