INNOVATE LOS ANGELES

INNOVATE LOS ANGELES

WHAT

The INNOVATE Los Angeles book is a 300+ page in-depth study and AR video series that showcases all the people, companies, products, and services that are leading the race within Los Angeles's innovation and entrepreneurial ecosystem. A book with augmented reality video, an online platform and a network with a common goal of ensuring Los Angeles's best innovations and innovation enablers connect and succeed.

WHO

The publication is divided into three types of contributors:

- The experts, thought leaders and academics with the ideas
- The innovations, the entrepreneurs, and the startups
- The supporters, funders, marketing, and enablers of Innovation for the ecosystem

This publication is not just aimed at experts, its target audience is also business people outside of the technology field, who need the information contained in this publication such as business leaders and decision makers who can affect change in their industries.

INNOVATE Los Angeles is all about showcasing the incredible innovation ecosystem in Los Angeles by featuring the companies and individuals that play an important and active role in its growth and development.
