AICommander	141	V1	XX/XX/2025

Voice Over / Script	Graphics
<i>AI is the next frontier. AICommander is your protector.</i>	Rudimentary Blue Knight with sword and shield bounds forward.
<i>Since 2018, AICommander has been shielding global users from destructive content created by Generative AI and LLMs.</i>	Knight shields two smaller figures from unseen danger, swinging his sword. Zoom into his shield to reveal...
<i>Using myriad safety solutions, such as prompt and output filtering, incident management, and model training,</i>	...A computer screen. A Coder at the computer types: “How are you today?” AI responds: “\$*%&” Coder shakes his head and types. Zoom into the screen to reveal...
<i>AICommander prevents AI from becoming a real monster.</i>	The Knight’s shield. Zoom out further to show the Knight now battling a dragon.
<i>We create safe models to ensure a positive user experience and help your business avoid harm to your clients.</i>	The Knight defeats the dragon with one slash through the air. He stands on the dragon as villagers cheer.
<i>Furthermore, our products are customizable, offering protection across media</i>	Illegible words, rudimentary image of a landscape, a “video” of a rudimentary figure walking and two talking heads with audio lines coming from their mouth splash across the screen
<i>but tailored to your specific needs.</i>	A Tailor sews cloth as the Knight taps his foot.
<i>Be it as simple as automated content detection or as in depth as red teaming we work with you to decide how best to secure the future of your business.</i>	Red figures rush at the Knight. He swings his sword and they all run in the opposite direction.

<i>The future of AI is uncharted.</i>	A sea map Zoom out to reveal...
<i>Now, is the time to prepare for what comes next.</i>	...the Knight looking at the sea map. Zoom further out to reveal the Knight on a ship sailing the sea. Zoom continues to reveal the sailing ship is actually...
<i>Contact AICommander to make your AI, and the internet, safer for all.</i>	...an image on a computer screen. The Coder leans back watching the ship sail onscreen. The AICommander logo appears.
