Rebekah Cramp
Specialist in Marketing Recruitment
EMR

Dear Rebekah,

I'm excited to apply for the Video Editor position at EMR. With my background in film production and editing being my specialist area, I've got a real passion for creating engaging content which I believe would make me a great addition to your team.

While studying at the University of Portsmouth, I have worked on a variety of projects, including fictional and non-fictional films, this is where I've fine-tuned my skills on editing softwares like Adobe Premiere Pro, AVID, DaVinci Resolve and After Effects. I'm particularly excited about the opportunity to edit for platforms like TikTok, Instagram, and YouTube as I have only recently engaged with these platforms professionally and have genuinely enjoyed expanding my knowledge in these areas .

Despite having little knowledge on motion graphics and animation, I have an excellent capacity to retain new information and expand on those skills over time. I enjoy every part of the editing process whether it's adding text overlays or simply making sure the pacing flows smoothly, I strive to create videos that stand out and I will make it my priority to ensure that every piece of content reflects this.

I have also gained many transferable skills working in hospitality alongside my studies, I have proved many times that I am a reliable and dedicated employee by managing a team during fast paced, busy periods, maintaining a well stocked and organised bar, building a rapport with many regular customers and I have been praised for my ability to de-escalate conflicts while still remaining calm and assertive.

As a student, I'm no stranger to tight deadlines and fast turnarounds, which I know are common aspects in digital marketing. I pride myself on my propensity to work both independently and within a a group structure where I am able to give and receive constructive criticism. Most importantly, I'm always looking for new ways to stay ahead of the curve with social media trends and present fresh ideas to the team.

Thank you for considering my application. It is my hope that you will see me as a viable candidate for EMR. I hope that my experience, combined with my enthusiasm for continuous learning and improvement, will make me a vital addition to your team.

I'd love to chat more about how I can bring my creative vision to EMR. If additional information is required, please do not hesitate to contact me via the email and phone number listed above.

Best,
Mikkaela Falshaw
