

Who We Are

Lee Health Lee Physician Group comprises primary and specialty care physicians as well as highly trained advanced practitioners. With locations across the region, we are here when you need us.

As part of Lee Health, we have access to leading-edge equipment and technology, connectivity with hospitals and outpatient centers through Epic—the premier electronic health record (EHR) system—and we are backed by the comprehensive services and staff.

Evening and weekend appointments are available in our primary care offices. Our Call Center is open 7 a.m. to 7 p.m., seven days a week to schedule appointments and answer questions.

For more information or to schedule an appointment, call 239-481-4111.

MyChart®

Our practices also offer MyChart, which provides you with a secure, online portal to access your health information.. This personalized, convenient service allows you to:

- » View your health summary, medications and most test results
- » Review, request and cancel appointments
- » Receive important health reminders
- » Request prescription refills
- » Notify us of any address changes or any other contact information as well
- » Submit pre-visit questionnaires to save time checking in for your visit

our patients.*

What We Do

Patient & Family Centered Care

Family members know their loved one better than anyone. Lee Health understands that happy, informed patients and families make better decisions about care, treatment, and safety.

Our staff members rely on your feedback, and we support choices patients and families make. Because we believe partnership is essential: Collaboration and communication improves healing. This belief and respect shapes our work and approach at every turn.

Your Satisfaction is our Priority

Your input and complete satisfaction are important to us. We regularly send out surveys to gauge our patients' satisfaction. We hope that you will take the time to complete and return the survey because we always want to know how you feel about the care you receive.
