Now, you might be wondering..

"What are the most requested vehicles on GTi Rides?"

Well, because I'm sweet, kind, and love sharing *valuable* tea, here are the top five most booked cars on the GTi Rides Marketplace. 💰

1 Toyota Prado (2020 and Newer Models)

I mean, of course! The **Prado** made the list! Some even call it "**Prada**" (no shots thrown 🙄). It's one of **GTi Rides' most requested vehicles**, and for good reason.

It gives you that **luxury feel without the luxury price tag**. Among premium SUVs, the Prado stands out as one of the **most affordable luxury rental vehicles**, making it the perfect choice for when you want to **arrive in style without breaking the bank**.

2 Lexus GX460 (2020 and Newer Models)

The rise of the Lexus GX460 needs to be studied. It came in like a thief in the night, and do you know what it came to steal? Our hearts. 💕

Everybody wants to jump on the GX bandwagon, and honestly, who wouldn't? It exudes class, superiority, and pure luxury. One thing our clientele loves to do? Stand out. And the GX460 delivers every single time.

3 Toyota Highlander (2016 and Newer Models)

This right here? A rugged master. 💪

Never seen a stronger, tougher vehicle. It's perfect for when you need to stand your ground. The Highlander doesn't play. It says:

"I'm not here for vibes. I'm here for business."

"I am NOT your mate, please don't mess with me."

It's giving, "boss energy" and unshakable confidence.

4 Any Toyota Sedan (2010 and Newer Models)

Toyota Camry or Corolla? These two? They are like your present boyfriend.

- Always there for you.
- Reliable.
- Effortlessly smooth.

Need to run errands? Quick movements? Stress-free ride? These cars are your perfect companion. No wonder they made the list, they define utility luxury.

Count me in, please. And you should count yourself in too.

5 Toyota Land Cruiser

Now this one? Our executives love it. It commands respect.

And when it's bulletproof? You've just put the icing on an already perfect cake. 🍰

The Land Cruiser is a boss move. It's for people who want to say:

"I am a high-profile man."

"I am important, but also unreachable."

"You can't mess with me... Not like you could anyway."

VIPs and *people with haters*, this is your car. 😎
