

# who am I ? :

# Dami Etimiri

My name is Dami and I am a Creative, driven and user focused Creative digital media student currently in my third year of study, with a strong passion for making intuitive and engaging digital experiences. Experienced in UX/UI design , prototyping and visual storytelling with hands-on experience using tools such as Adobe XD , Photoshop, Illustrator and After effects. Throughout my years of study I have aquired a strong interest in UX/UI design and Animation.

## Education

### **Bachelor (Honours) Creative Digital Media**

**Munster Technological University  
2023- Present**

### **Leaving Certificate**

**Presentation Secondary School Tralee  
2017- 2023**

## Interests

I loving getting to express my creativity through my culture whether that is through art, losing track of time with the music or experimenting different cultural meals in the kitchen.

## Work Experience

### **IT Servicedesk Assistant**

**Munster Technological University 2025-  
Present**

Responsible for assisting students with technical difficulties by performing basic troubleshooting techniques.

### **Retail Assistant**

**Murphy's Ice Cream 2025-  
Present**

Provided excellent customer service in a busy retail environment. Responsible for opening and closing shop, handled cash and POS systems. Prepared and served ice cream also informed customers about product and ingredients.

### **Field Sales Representative**

**Phonewatch 2023**

Engaged in door-to-door sales of home security systems ,explained product features and benefits to potential customers. Built customer relationships and followed up on lead.

## Personal Goals

One of my main goals as a creative digital media student is to work in a field that I am passionate about , my creative focus is centred around UI/UX Design , Animation and Character/Product Design . I have always enjoyed working with people so working as a UI/UX Designer would allow me to combine my love of design and creation while also enabling me to continue interacting with people. I would also like to continuously expand my creative and technical skills in digital design , animation and multimedia storytelling.
