

## Ticoze G40 Globe Patio String Lights, Vintage, Edison Style Filaments, 24ft, 25ct

Light up your *home*.

Brighten up your space with our 24ft G40 Globe Patio String Lights. Each strand includes 25 clear bulbs - so whether you want to give your outdoor space the charm of a cozy restaurant, or find a unique way to add some ambient lighting to your living space, these lights provide the perfect solution.

Our G40 globe bulbs are crystal clear and are designed with Edison, vintage style filaments, giving any room or outdoor area a classic look. They create a moderately bright light at 500lm per bulb, and are compatible with most conventional dimmer switches, enabling you to dim or brighten the lights as needed.

Additionally, these bulbs never overheat, and parallel circuits prevent a complete loss of function should a single bulb go out. Other features include: (a) Specialized plug designed to provide an extra fire safety, and (b) Male and Female ends which allows you to connect up to three separate strands from a single 125v outlet.

### Specifications:

Socket Type: E12 Base

Bulb Count: 25

### **Jonathan's on the Road Again**

*Camping doesn't have to be a dark and dingy affair.* At least, that's what Johnathan thought once he saw these brilliant and beautiful lights online while planning for his upcoming camping trip. Not only are they a delightful way to light his camper and provide an added measure of security, but the ambient lighting is gentle enough not to disturb his fellow campers.

He could just picture it – unfolding his chair, cracking open a beer, and sitting under the dim glow of these elegant bulbs, the summer breeze as warm as the glow from the lights overhead. Bright enough to keep away the animals, but not so bright as to hide the canopy of stars hanging overhead.

Ticoze's G40 Globe String Lights are beautiful, elegant, and simple to install.

This year, elevate camping to the next level.
