

TO THE QUEENS WHO NEVER SETTLE FOR BASIC

- Are you tired of chipped, dull nails ruining your vibe?
- Have you wasted money on painful nail sets that barely last a week?
- Are you ready to be the woman no one forgets after a single handshake?

If you said **yes**, this is the *only* information you'll ever need.

Hi, I'm Mathilda—Founder of Thilda Nail Arts.

I started Thilda Nail Arts because I believe every woman deserves nails that look as elegant as she feels.

Over the past four years, I've helped more than **50 women across Nigeria** become the stars of their events by transforming their nail game from basic to *flawless*.

Now, I want to do the same for **you**—**COMPLETELY FREE**.

But before you think this is just another sales pitch, let me tell you a quick story.

Meet Tina

Tina is a confident, stunning woman—her hair, heels, and outfits are always on point. But her nails? They always let her down.

Despite trying multiple nail techs, nothing lasted. Her nails chipped within days, left her fingers sore, and made her look unkempt. Worse, the harsh chemicals damaged her natural nails—and none of the styles ever truly matched her real personality or what she wanted to portray at the moment --- Whether it was the bougie Queen, the boss babe or the sophisticated corporate baddie.

Eventually, she gave up and stuck to painting her own nails. That didn't work either—by day three, her polish was chipped and messy again, and she didn't have the time to repaint constantly.

Just when she was ready to give up completely, a friend introduced her to **Thilda Nail Arts**.

We listened to her needs and created a custom set that finally embodied the magnificent Queen she was.

No pain. No peeling. Just stunning, long-lasting nails.

Now, Tina walks into every room with confidence—because her nails finally reflect who she is.

This could be you, too.

You don't need to keep fixing nails that chip in days.

You don't need to waste more money on painful sets.

You deserve nails that **announce your presence** the moment you pick up a pen.
