

It's a new era at Steamatic with a brand-new website (<https://www.steamaticct.com/residential/air-duct-hvac-cleaning>) as well as active posting on our accounts at [Facebook](#), [Instagram](#) and [LinkedIn](#). If you want to learn more about our unparalleled restoration and cleaning services, or to view images from our jobs and blog posts, come check out our channels. We keep getting invited back into family homes and businesses all across Connecticut, Massachusetts, Rhode Island and New York because healthy indoor environments start here. With Steamatic, you receive expert knowledge across six services:

**[Air Duct & HVAC Cleaning](#)** – Don't spend your summer worrying about the dust and dirt in your air. Our 17-step cleaning process will have your HVAC system running effectively and efficiently.

**[Water Damage Restoration & Repair](#)** – The next few months, your water bill may be higher than normal. However, leaks will lead to even higher bills: do not wait—give us a call if you spot water damage.

**[Mold Remediation & Inspection](#)** – Warm, humid places are the perfect breeding ground for mold. Not only can we remove mold from your ventilation, but we can also clean them to prevent future growth.

**[Smoke & Fire Restoration](#)** – Fires can occur without warning, especially when the weather is warm and arid. If you do experience a fire, we can restore your building's condition along with your peace of mind.

**[Cooling Tower Cleaning & Repair](#)** – Hotter temperatures mean a higher strain on your cooling systems. We keep your towers running at peak performance with routine repairs and custom installations.

**[Hard Surface & Carpet Cleaning](#)** – Nothing feels better in the summer than running your bare feet across cool hardwood or carpet. Contact us for a thorough cleaning to keep your floors looking new.

Choosing Steamatic ensures that you will receive a partner who is as concerned about the health of your indoor environment as you are. It guarantees the reassurance and comfort that comes from working with a cleaning and restoration service with decades of experience and industry-leading processes. For 40 years, we have been reliably cleaning commercial buildings, and we cannot wait to clean yours.

Healthy indoor environments start here.
