

1.

LinkedIn: We are wishing everyone a Happy Labor Day! Today is a time to celebrate the workers that helped build this country and will continue help building a sustainable future for us and future generations. Thank you for your dedication and hard work! 🎆🎆🎆

Twitter: On this Labor Day, we thank everyone who has played a role in our collective journey to sustainability and climate responsibility. We are especially thankful of the commitment and innovation of our teams who set the standard for our industry 🎆🎆🎆

2. **LinkedIn:** Summer heat waves are at an all-time high, and the risk of electricity blackouts isn't going away any time soon. To get a full grasp on what you need to know, check out this critical discussion from our Sourcing and Risk Management team:

3.

LinkedIn: With all the talk surrounding Facilities Management 2.0, it's important to get key insight and tips on implementation. That's why our Vice President of Channel Development, @Justin Lavoie, was interviewed about giving systems integrators a seat at the design table:

Twitter: When it comes to Facilities Management 2.0, nobody knows more about giving systems integrators a seat at the design table than our Vice President of Channel Development, @Justin Lavoie. Check out his interview with AutomatedBuildings.com:

4.

LinkedIn: The NSBE Professional Development Conference is an amazing opportunity to talk more about global sustainability. Our #SEGreatPeople are hosting a workshop on "How a Digital and Electric World Can Address Climate Change." We hope to see you there!

Twitter: When it comes to reaching net-zero, we need everybody's help. To hear more about what our sustainability thought leaders have to say about the path to decarbonization, join our #SEGreatPeople for a workshop on "How a Digital and Electric World Can Address Climate Change":

5.

LinkedIn: We are proud to announce that Schneider Electric has won platinum at the 2022 AVA Digital Awards! Against a fierce competition of over 2000 global entries, our mySchneider personalized partner experience campaign stood out for its design and concept:

Twitter: Schneider Electric has won three 2022 AVA Digital awards! Against companies like Microsoft and McKinsey, our mySchneider personalized partner experience campaign took gold:

6.

LinkedIn: Making strides in energy and environmental management requires strong partners like @Willingboro Municipal Utilities Authority. Which is why we're proud to announce that we have received a Top Project of the Year Award in the elite Environment + Energy Leader Awards program:

Twitter: With a Top Project of the Year Award in the elite Environment + Energy Leader Awards program, our infrastructure program with the Willingboro Municipal Utilities Authority is a key example of exemplary work in energy and environmental management:

7.

LinkedIn: In the coming decades, we will see more drastic changes in residential living. Home expert @Christy Roth shares her perspective in this article: “With more people working from home... reliance on resilient home energy has become a greater priority.”

Twitter: Check out this Connected World article for what Christy Roth, our director of offer management, home, and distribution software and devices, has to say about the coming changes in residential homes:

8.

LinkedIn: “It’s critically important to understand what using EVs as alternate energy sources means for the wider grid.” In this @Brad Willis article, he discusses preventing power grid issues, the aspiration to action gap, and how to create long-term solutions with EV power:

Twitter: More than anyone, EV evolution expert Brad Willis knows what it takes to improve home energy resiliency. Read more about his thoughts in this Automotive World article:
