

A passion for learning starts with a connection. A smile. A high-five for a problem solved or a fist bump for a new skill mastered. These little victories build and grow as students gain confidence and shift from “I can’t” to “I can.” Their faces light up and their joy is contagious!

Every day 600,000 students in special education are improving their knowledge and reaching goals with n2y’s solutions. For many students and teachers, Unique Learning System is the catalyst for progress.

Students love the highly engaging activities, and teachers trust the variety of classroom-proven, research- and evidence-based resources that are always just a few clicks away. For every learner, at every grade level from pre-K through transition, leaving more time for teachers to connect with their students. And more opportunities for the aha moments.

(Testimonial 1)

Administrators and teachers appreciate anything that reduces teacher planning time like the cross-curricular, standards-based lesson plans Unique Learning System seamlessly integrates with assessment, differentiation, and reporting. They also love n2y’s unparalleled supports, including built-in professional development, step-by-step guidance, and expert advice, all of which help teachers drive better learning outcomes for their students.

(Testimonial 2)

Classrooms built around Unique Learning System are already celebrating greater academic progress and IEP goal attainment using strategies that reach all students. Strategies based on research and data. Teachers in classrooms across the country use Unique Learning System to support their specially designed instruction—especially in the areas of literacy and math.

Fill your classrooms with the shared moments that let students shine and ignite the sparks that create lifelong learners. Request a free trial or schedule a demo of n2y’s Unique Learning System with a member of our sales team today and experience your own aha moments.
