About This Kit

PRODUCT DETAILS

Wander garden paths through rings of colorful blossoms! Inspired by lush landscaping, our original mandala afghan showcases circles of rich, textural stitches radiating from a floral mandala centerpiece.

Annie's Crochet Mandala Afghan Club is a monthly subscription of kits to crochet this beautiful mandala afghan inspired by flower blossoms. Perfectly paced, each shipment includes all the yarn and instructions you need to crochet a new section of your afghan. Plus, you get exclusive access to online video tutorials.

Floral corners, unique rows and fringed borders make this dazzling mandala a step above the rest. Each section of the afghan uses unique elements and textures to elevate the design, combining the mandala pattern crocheters love with the rectangular shape of a practical, cozy afghan.
