THINK ABOUT...

A single starting place, where hard work and teamwork come together. It's a starting place for success and it's everyone's goal to get there. And that starting place is Home Base.

ONE SINGLE SIGN-ON TO A SUITE OF MANY TOOLS

The Home Base suite of tools is your pathway to classroom success. The suite includes Schoolnet, PowerSchool, TrueNorthLogic (TNL), Canvas and Equella.

All products within Home Base are available through a single username and password via the single sign-on service provided through NCEdCloud (IAM), simplifying access to these powerful tools. Users can access each component individually instead of through PowerSchool, simplifying access and limiting risks when one component is unavailable.

You'll be able to learn Continuing Education Units through Home Base, as well as have access to professional development resources and educator evaluation data.

A new Learning Management System, Canvas, will smooth classroom activities and lead you to core-based Instructional Resources while allowing collaborative sharing between educators. Creating and storing resources is simplified with a Learning Object Repository, Equella.
