Splashing Success at Datasonic H2O Run 2024

Datasonic made a splash at the H2O Run 2024, turning Padang Merbok into a vibrant sea of colors and laughter on 27 January 2024. The day kicked off with an energetic warm-up session led by the charismatic Hanif Shawn, setting the tone for an unforgettable experience. At precisely 7:30 am, the flag-off marked the beginning of an exhilarating 5km run that united Datasonic employees, students from our adopted school SMK Seksyen 11, members of the Little Fighters Runners Organization, and enthusiastic members of the public. The water-themed event added an element of surprise as runners embraced the water splash, turning the run into a refreshing adventure.

The highlight of the day was the esteemed presence of The Minister of Youth and Sports, YB Hannah Yeoh, who graced the event with her enthusiasm and encouragement. Her participation added an extra layer of significance to our collective effort to promote health & sports, unity, and community spirit.

The festivities weren't limited to just running, there was something for everyone. Families and kids had a blast exploring a Petting Zoo, bouncing around in the castle of joy, and transforming their faces into colorful masterpieces with the help of talented face painters. The joy on the children's faces was truly heart-warming.

But wait, there's more! Our participants didn't just run and enjoy the activities. The participants left with more than just memories. Over 500 lucky participants were rewarded through a Lucky Dip and Lucky Draw, ensuring that most went home with smiles and fantastic prizes in hand.

The Datasonic H2O Run 2024 wasn't just an event, it was a celebration of unity, fitness, and giving back to the community. A big shout-out to everyone who participated, volunteered, and contributed to making this day a resounding success. Your enthusiasm and commitment truly made a splash and we can't wait for the next exciting chapter in our CSR journey!
