October 10, 2016

Dear Friends,

For the second year running, we are thrilled to bring WTT Smash Hits to Caesars Palace in Las Vegas! We guarantee a spectacular evening filled with entertainment and first-class tennis – all for a great cause! We are so proud to have some of the game's biggest names join us annually for this unique event benefitting the Elton John AIDS Foundation (EJAF).

More than two decades ago, we had a vision to unite the tennis and music communities in the fight against AIDS. Since 1993, that vision has become reality as this event has generated much-needed awareness and funds in so many cities. Through WTT Smash Hits, we have raised more than \$14 million for EJAF's national and international efforts to eradicate the AIDS virus, fund direct patient care and offer prevention education to men, women and children. WTT is an ardent supporter of EJAF in their mission and your support of this initiative helps bring us all closer to our goal.

We would like to give special thanks to our presenting sponsor Citi and our host sponsor Caesars Palace. Without their tremendous enthusiasm and dedication to our efforts, we could not have brought this event back to Las Vegas. Our gratitude goes out to each of our partners for their generous assistance and to the players who donate their time and talents, along with our volunteers, umpires, ball kids and fans who, without question, give of themselves to help make tonight possible.

The excitement has been building since last year's success. In 2015, Team Elton defeated Team Billie Jean 17-11 to move ahead 12-11 in the overall series. Bragging rights are on the line, so be loud, have fun and cheer us on!

Thank you for your compassion and commitment. Enjoy the night!

Elton John AIDS Foundation

The mission of the Elton John AIDS Foundation (EJAF) is to end the AIDS epidemic by ensuring everyone has the information and means to prevent infection and all people living with HIV have access to high-quality medical care and treatment. At EJAF, we believe AIDS can be beaten. We act on that belief by raising funds for evidence-based programs and policies, and also by speaking out with honesty and compassion about the realities of people's lives.

Sir Elton John created EJAF almost 25 years ago, first in the United States in 1992 and then in the United Kingdom in 1993. Through hard work and with the help of our network of generous friends and supporters, the two foundations together have raised more than \$350 million over the past quarter century to combat stigma, prevent infections, provide treatment and services, and motivate governments to end AIDS. The U.S. foundation focuses its efforts on programs in the United States, the Americas, and the Caribbean, while the U.K. foundation funds HIV-related work in Europe, Asia, and Africa.

The U.S. foundation was recently recognized by Funders for LGBTQ Issues as the largest funder of LGBTQ health programs in the nation. During 2015, the Foundation awarded nearly \$9.8 million in grants to 134 organizations across the U.S., as well as Canada, Mexico, and the Caribbean.

EJAF's grant making encompasses grassroots and community-based programs, regional partnerships, national strategies, and international cooperative efforts. The Foundation's grant making focuses on HIV prevention, harm reduction, community health and human rights empowerment campaigns, stigma eradication, and compassionate public policy development. EJAF also supports direct services for persons living with HIV/AIDS, including medical and mental health treatment, testing and counseling services, case management and social service coordination, legal aid, and professional training.

In addition, the Foundation is an international leader and champion on politically marginalized issues, backing up its grant

making with speeches, editorials, and other public communications calling for access to life-saving medicines for the poor, for LGBT health and rights, for accessible sexual health services for young people, for health and economic equality for Black Americans, and for fully funded post-prison community re-entry programs for HIV-positive ex-offenders.

EJAF's regional, national, and international leadership in this field is predicated upon (1) its vigilant attention to the constant challenges of this ever-evolving global epidemic, (2) its commitment to the development of strong partnerships with like-minded organizations in order to maximize resources and minimize duplication of effort, and (3) its strategic investment of donor dollars to have the greatest possible impact in reducing the incidence of HIV/AIDS. The U.S. organization targets key regions and populations poorly served by current prevention efforts and most at risk of infection: critically under-funded communities in the United States, the Americas, and the Caribbean; stigmatized and marginalized populations including gay and bisexual men, transgender people, injection drug users, and incarcerated individuals; and under-served populations including Black Americans, women and girls, and young people.

For ten consecutive years, EJAF has been recognized as a four-star charity – the very highest rating – by Charity Navigator, indicating that the Foundation consistently executes its mission in a fiscally responsible way and adheres to good governance and other best practices that promote and ensure ethical and transparent business dealings. EJAF's strong financial health and dynamic and flexible grant-making philosophy position the organization ideally to respond to sudden emergencies involving the life and health of people living with HIV/AIDS, to adjust its grant-making priorities to address the needs of the ever-shifting demographics of this global epidemic, and to advocate for policies that protect and strengthen the health and rights of people affected by HIV/AIDS.

HOW IT'S PLAYED

MATCH

Tonight's match will feature the WTT format – Team Elton will play against Team Billie Jean. The team with the most total games at the end of four sets plus Extended Play (if necessary) wins the match. Scoring is cumulative. A celebrity set of doubles will kick off the night followed by a set of men's singles, a set of men's and women's doubles and one set of mixed doubles. The celebrity set will not count towards the overall match score. Team Elton leads Team Billie Jean 12-11 in the series.

Team Elton

Andy Roddick
Liesel Huber
Mardy Fish
Martina Navratilova

Team Billie Jean

John McEnroe
Maria Sharapova
Mark Philippoussis
CoCo Vandeweghe

*Match format and teams subject to change

SCORING

- Scoring is no-ad (the first team to win four points wins the game). Game scoring is 1, 2, 3, game.
- At game point (3-3), the receiver chooses the side to receive the serve from (in mixed doubles, it is gender-to-gender).
- If a set reaches 4-4, a 9-point tiebreaker is played.
- Each game counts as one point in the team's cumulative match score.
- Let serves are played.

WINNER OF THE MATCH

The match concludes when the team leading in overall game score wins the final set, or when the trailing team going into the final set wins it and captures the lead (overall cumulative score).

EXTENDED PLAY

Extended Play, if necessary, is played following the final set. If the final set is won by the trailing team and the trailing team is still behind in the cumulative score, the match goes into Extended Play and continues until the leading team wins one game or the trailing team ties the match score. If the score becomes tied, the match is decided by a Supertiebreaker.

SUPERTIEBREAKER

In the event the match score is tied after all sets, or if the trailing team ties the score in Extended Play, a 13-point Supertiebreaker is played to decide the outcome of the entire match. The server of the 12th point will serve the 13th point- gender to gender. Players change ends after the 6th point. The first team to reach 7 points is awarded a single game and the match.

**SIR
ELTON JOHN**

Photo: Greg Gorman, 2014

@eltonofficial

For more than 40 years, Sir Elton John has been one of the most successful and acclaimed entertainers in the world. As one of the five best-selling solo-artists of all time, Elton has earned his place on the Billboard charts and in the record books again and again.

In addition to having 35 gold and 25 platinum albums to his name, Elton has also recorded 29 consecutive Top 40 hits, more than both The Beatles and Madonna and second only to Elvis Presley. Elton holds the record for the best-selling single of all time, "Candle in the Wind," which sold 37 million copies.

A Grammy, Tony, and Academy Award-winner, Elton received the Oscar for his original song, "Can You Feel the Love Tonight," featured in *The Lion King*. The Broadway show, *Billy Elliot*, which Elton scored, garnered universal acclaim and won 9 Tony Awards.

President George W. Bush presented Elton with the Kennedy Center Honors for his lifetime contribution to American culture in 2004. *Rolling Stone* magazine ranked Elton John as one of the most influential musicians of all time.

Nearly 30 years ago, Elton began a second career as a humanitarian and leading activist in the fight against HIV/AIDS. Motivated by the loss of dozens of close friends to AIDS in the mid-1980s, Elton began channeling his grief into efforts to raise money for people in need of treatment and support. He also became an outspoken advocate for all people affected by HIV/AIDS and as a result became a close friend of Ryan White and his family. In 1992, shortly after Ryan's death, Elton established the Elton John AIDS Foundation (EJAF).

EJAF is one of the world's 10 largest grant-making organizations dedicated to fighting HIV/AIDS. Since Elton established EJAF in the United States in 1992 (and in the United Kingdom in 1993), the Foundation has raised more than \$350 million in community-based, front-line programs. Today, EJAF funds projects around the globe, providing innovative HIV-prevention education, leading efforts to combat stigma and discrimination, and undertaking care and support services for people living with the disease.

Over the years, Elton has been recognized as a global leader in the fight against AIDS. For his humanitarian efforts and artistic achievements, Elton was knighted by HM Queen Elizabeth II. In 2012, Elton was the keynote speaker at the International AIDS Conference in Washington, DC, where he also addressed the global epidemic at a special briefing in the U.S. Senate. In 2013, the Rockefeller Foundation honored Elton with its prestigious Lifetime Achievement Award in recognition of humanitarian work, and he also received the Harvard School of Public Health AIDS Initiative Leadership Award.

Elton's national bestseller, *Love Is the Cure* (Little, Brown: 2012), chronicles the history and work of EJAF, and presents his vision of an AIDS-free world.

Elton's work in the fight against AIDS is rooted in the fight for equality, and that extends to giving students across the country equal opportunity for a successful future. Elton recently joined President Obama's Turnaround Arts initiative, bringing the power of music to students in underserved communities as a way to increase engagement and give every student an equal shot at a successful, healthy future.

**BILLIE
JEAN KING**

Photo: Andrew Coppa

New York, New York
 @BillieJeanKing

Billie Jean King is the founder of the Billie Jean King Leadership Initiative and the co-founder of World TeamTennis. As one of the 20th century's most respected and influential people, she has long been a champion for social justice and equality. She created new inroads for both genders in and out of sports during her legendary career.

On August 12, 2009, King was the first female athlete awarded the Presidential Medal of Freedom, the nation's highest civilian honor. The first female athlete to be honored with the Medal of Freedom, King was presented the award by President Obama in ceremonies at The White House.

King was honored on August 28, 2006, when the National Tennis Center, home of the US Open, was renamed the USTA Billie Jean King National Tennis Center in honor of King's contributions to tennis, sports and society both on and off the court. She was also named one of the "100 Most Important Americans of the 20th Century" by *Life* Magazine in 1990.

King has long been recognized for her victory over Bobby Riggs at the Battle of the Sexes in 1973, an event that is remembered for its effect on society and its contribution to the women's movement. In 2008, King authored *Pressure is a Privilege: Lessons I've Learned from Life and the Battle of the Sexes* to commemorate the 35th anniversary of her historic win.

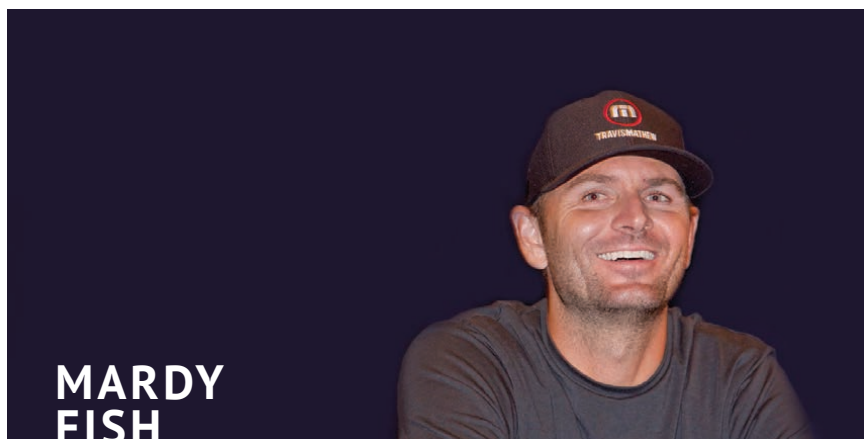

On the court, King won 39 Grand Slam singles, doubles and mixed doubles tennis titles, including a record 20 titles at Wimbledon. She was one of nine players who broke away from the tennis establishment in 1970 and accepted \$1 contracts from tennis promoter Gladys Heldman in Houston which led

to the birth of women's professional tennis. King then founded the Women's Tennis Association in 1973 and the Women's Sports Foundation in 1974.

In 1974 King co-founded World TeamTennis (WTT), the revolutionary professional tennis league. The league, which just completed its 41st season, showcases the best in professional team tennis competing for the King Trophy. She is currently the owner of one of the league's six franchises, the Philadelphia Freedoms. Elton John wrote the hit song "Philadelphia Freedom" in the 1970s in tribute to King and her WTT team.

King is a member of the President's Council on Fitness, Sports and Nutrition and serves on the boards of the Women's Sports Foundation, the Andy Roddick Foundation and the Elton John AIDS Foundation. She continues to be a leader in the fight for equality and recognition in the LGBT community, and has been honored by many of the leading LGBT organizations, including the Human Rights Campaign, GLAAD and Lambda Legal Foundation. She is also a 2016 recipient of the LOGO Trailblazer Award.

**KILPATRICK
TOWNSEND**

Game Set Match

Kilpatrick Townsend is proud to support the 2016 WTT Smash Hits all-star charity event, benefiting the Elton John AIDS Foundation. Like your beneficiaries, our clients always take center court when finding the best, most efficient solutions to their legal needs.

XS TENNIS CHICAGO

The XS Tennis and Education Foundation Mission is to provide Chicago's underserved youth with an enriching safe-haven and positive academic/athletic pathway to college through a community-based sports and academic enrichment program. Over the coming years, XSTEF's Mission is to introduce as many Chicago youth as possible to XSTEF's program on the pathway to college, graduate school, and successful futures.

It takes a village to build one...

The XS Tennis and Education is currently securing its future by building the XS Tennis Village on Chicago's South Side. The XS Tennis Village will create a permanent home for the XS Tennis and Education Foundation.

We are relying on individual, corporate, and community support to build the XS Tennis Village. Whether you are a Grassroots supporter who can donate \$25, an individual who can Buy-A-Brick for \$500, or a corporation purchasing Naming Rights to the stadium court, we need and appreciate your commitment. It takes a village to build one, and every single supporter makes a difference!
