About Tuft & Needle

When we're rested, we're more present, more energetic, and more open to experiences happening around us.

Maybe we'll make breakfast with the kids, and actually sit down together to enjoy it. Maybe we'll have the motivation to go for a run, and even start training for that half-marathon. Maybe we'll have the energy to volunteer for the food drive, and sign up to help on a regular basis.

At Tuft & Needle, we've always been inspired by what our customers can do with their days after a great night's sleep.

Since we started in 2012, we've made listening to our customers our priority. We didn't like what we saw in the mattress industry and heard that customers felt taken advantage of. So we created an experience that made mattress shopping easy and enjoyable, with best-in-class customer service and innovative products. Our materials are thoughtfully selected and responsibly crafted into products we believe in—all of them free from known harmful chemicals, making the air we wake up to cleaner. We even developed our own Adaptive foam, iterating hundreds of times based off years of customer feedback.

RECLAIM THE NIGHT & LOOK FORWARD TO THE DAY

Our goal is to help you create your own sleep experiences where you can fully relax and rest.

## Why Tuft & Needle

Knowing sleep is essential to wellness, we offer everything you need to take care of yourself and wake up awake.

### Innovatively designed

We're advancing sleep technology with materials like our own cooling, more contouring Adaptive foam – and by constantly iterating.

### Responsibly crafted

Rest easy knowing our mattresses, bed frames, bedding, sheets, and pillows are free from harmful chemicals, making the air you wake up to cleaner.

### 100-night in-home trial

We offer our trial and free returns as reassurance, but if you're looking for more—95% of our customers keep their T&N products.

### Hassle-free warranty

As a mattress company we stand behind our products. That's why our mattresses come with an easy-to-use 10-year limited warranty.

## What is T&N Adaptive® foam?

Essential to our mattresses, T&N Adaptive foam was created based on customer feedback to provide pressure relief where you need it most. The open-cell structure offers a flexible sleep surface that responds and adjusts with you.
