2.Videography

I.Documentaries

We capture and present factual information about real people, places, and events by the use of images, video and film scenes, sound, and artifacts of real people.

II.Wedding shoots

We document your special day's moments by capturing breath-taking moments that will stay with you forever.

III.TV Commercials

We take great creative, captivating, and persuasive videos of your product to impact brand perception, which is critical for sales and services.

V.Short Films

We are dedicated to making short films for organizations looking to explore important themes in a more cinematic way. Our style of narrative storytelling is based on highly imaginative story ideas that are typically allegorical & center on such universal themes as friendship, love, fear, alienation & hope.

IV.Promos

We produce compelling promotional videos that captivate audiences, inspire action and drive results for businesses and brands.. Content that gives customers the confidence to take the next step, whatever that may be.

3.Animation

YLab animation studios create engaging stories for broadcast and the web with a strong emphasis on well-designed characters. We work for advertising agencies and production houses, and also directly with brands. You give us your story, we'll get it moving

4.Broadcasting/Live Streaming

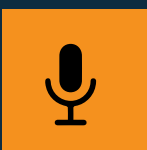

YLab powers video productions for thousands of viewers daily with the industry's widest range of smart production solutions. Ylab makes it easy to create compelling news, weather, and sports broadcasts, engaging material for sports stadium screens, entertainment shows and rock concerts, educational institutions, legislative assemblies, corporate applications and inspiring content for houses of worship.

5.Sound Design

Music, melodies, Sounds all to the ear, we are the best when it comes creating world class sound.

Jingles: Songs are easier to remember than words. Engage our sound masters to create catchy tunes for your radio or advertising projects just to hammer your messages home.

Sound Recording: Using the latest and state of the art audio recording equipment, Our Sound studios collects, edits, mixes and masters sounds that speak to your purpose with exact precision.

Music Mixing & Mastering: :

For Music to be described as quality; Sounds, rhythms and melodies must be skilfully adjusted and combined into a stereo or multichannel format before processing the mix into its final form ready for distribution. Our Sound engineers are ready to give you quality mixed and mastered audio projects.
