SPRING 2020

NOT ALL ORGANIC IS EQUAL

Giving has always been at the heart of Coyuchi. Giving back to the earth in appreciation for what it has given us. Giving back to the people who make organic farming and conscious processing possible. Giving sustainability and circularity a voice.

It's why we align ourselves with GOTS-certified organic farmers and manufacturers, Climate Beneficial™ Wool suppliers, and facilities that recycle their wastewater. It's why we've introduced the circular practices of Coyuchi For Life's subscription service and 2nd Home™, our take-back recycling program. This season is a reminder to show gratitude for what we are given—from the fibers we choose to the farmers and workers we partner with—and to spread those gifts to the world around

us. Our innovative initiatives aim to fill every room with the coziest physical comforts of home, paired with the peace of mind born from supporting a cleaner, healthier world.

This holiday season, give your gifts with love and intention, and watch them grow into cherished heirlooms over the years. When you let love motivate your choices, it shows thoughtfulness and kindness for the people you care about and for the planet we all share. Once you choose to give organic, consciously made gifts, you can truly mean it when you sign off your holiday cards “with love.”

Wishing you a joyous season,
