

About Memory Verses

Memory Verses will transform the way you learn Scripture.

More than just a mental activity, your body and mind are engaged as you fill in the letters of each verse, committing them more deeply to memory. You'll be challenged in a new way to take God's Word into your heart, and you'll have more of His encouraging truth and His loving promises to draw upon each day. Make it a priority as you use our daily calendar to select the days you want to memorize Scripture. Share with family, friends, or small groups, and enjoy learning together.

Our Story

Why we started Memory Verses...

Memory Verses began as a challenge from my wife. She decided to memorize one bible verse a week, and invited me along on the journey. Even though I resisted, I couldn't help but notice the changes in her, and the excitement that built as she got to know more and more of God's Word for herself. So, I decided to give it a go. But it was tough trying to learn the words by just reading the Scripture from an index card. That's when this online form of memorization was born. I created a program that prompted me to type out each Scripture from memory, filling in the missing letters to complete the verse. The results were amazing! What she had learned in eight weeks took me just one week to memorize. I knew this was something I needed to share with everyone.

Our Approach

What Memory Verses can do for you...

We invite you to experience Scripture in multiple ways – through voice recording, typing practice, and written recitation. Be encouraged as you track your progress; strengthen your faith by collecting your favorite verses; enjoy connecting with friends in group study sessions.

Use our daily calendar to keep your practice going at your own pace.

Multi-Sensory Memorization

Deepen your memory retention as you type and speak Scripture.

Personal Progress Tracking

We'll track your progress in detail as we help you monitor your journey.

Learning Together

Enjoy the connection, encouragement, and support of friends and study groups as you learn together.

Consistent Daily Practice

Use our daily calendar to help you reach your goals.

Verse Collection

Create a personal collection of memorized verses to recall and reflect on anytime.

The future of Memory Verses...

We're all about inspiring and equipping Christians worldwide to engage more deeply with God's Word through scripture memorization. We believe that committing scripture to memory transforms us – it becomes a constant source of guidance, comfort, hope, and peace in our daily lives.

As we continue to grow Memory Verses, we have exciting plans for the future. Our goal is to create the most encouraging and effective scripture memorization platform anywhere, offering advanced features and learning techniques. To keep this vision going, we plan to introduce a subscription model.

However, we firmly believe that financial circumstances should never stop someone from being able to study God's Word. That's why we're introducing a community growth program - users who invite 10 friends or family members will receive free access to our platform. This will allow us to help keep our platform sustainable, while making sure it remains accessible to anyone who's looking to grow in their experience of scripture.

The revenue we bring in through subscriptions will be used to develop better memorization tools, create more engaging features, and expand our platform's capabilities. Our team is committed to continuous innovation, always looking for new ways to make Memory Verses more effective and enjoyable.

Plus, we have a broader vision for promoting Bible memorization in the Christian community. We plan to partner with Christian podcasts and media platforms to share the importance of memorizing scripture – how it can truly transform anyone's walk with God. By reaching these audiences, we hope to inspire more believers to make scripture memorization a regular part of their day, ultimately creating a community of Christians who carry God's Word in their hearts.
