## PROFESSIONAL EXPERIENCE

### Scientific Research Assistant

University of Basel | 2025 - Present

- Evaluated, tested, and optimized molecular protocols for improved efficiency and reproducibility.
- Assumed responsibility for a collaborative bioinformatics analysis project, including data exploration and reporting.
- Completed training in science communication, public engagement, scientific filmmaking, and peer reviewing.

### Regulatory Training

Regulatory Affairs Professional Society | 2024- 2025

- Trained in regulatory writing and document submission in EU and the U.S, including development and quality standards of CTD, NDA, BLA, and MAA.

### Research Assistant

University of Zurich | 2020 - 2024

- Led five interdisciplinary projects, coordinating cross-functional teams in 10 countries.
- Coauthored and published four high-impact scientific articles, managing all phases from drafting to submission and revisions.
- Mentored bachelor's and master's students in research methodology, laboratory techniques, and scientific writing.
- Delivered successful presentations in four international congresses.

### Freelance Writer

INFOTITI | 2019 - 2020

- Published 45 short articles focused on neurology and mental health.
- Translated complex scientific and medical information into clear and engaging content for either expert or general public.
