## ABOUT US

The journey from a piece's initial inception to realisation is a breathtaking passage to follow. At every step, our master craftsmen work diligently to pour their hearts and souls into the fine products, creating out of individual parts a truly alive and resplendent piece for you and you alone.

Montblanc's tale began with the creation of our Meisterstück fountain pen in 1924. Perfectly handmade with the finest of European craftsmanship, the iconic writing instrument has secured cult status – and our affair with writing instruments did not stop there. It has grown to include a variety of magnificent collections, including the bejeweled Bohème and sleek, contemporary Starwalker, among venerated others.

While our precious writing instruments record the moments of your life, our equally exquisite watches aid you in keeping track of them.

Like their writing instrument counterparts, our master timepieces are each meticulously crafted by hand to the finest of Swiss tradition. Also awaiting you are splendidly crafted leather products, elegant jewelry, enthralling fragrances and contemporary eyewear. Discover the all-encompassing collection that Montblanc has to offer.
