

Wyoming,
Colorado is your future
Build your wall now
or perish

You were always good
at fences
Barbed wire
Hanging scarecrows

But people are coming
it's inevitable
The Kardashians made it cool
A fate worse than death

The wind and the cold
might keep them at bay for now
But not forever
It's getting crowded down here

Your future is
suburbs and parking lots
Crowds and traffic
Highrises and interchanges

Sure, you'll get a museum or two
But is it worth it?
The prairie, the vastness
will vanish

Snakes and rabbits
trapped in window wells
Making way
for urban sprawl

We'll bring our weed
and our ethnics
Feminists and pollution
Yuppies and homeless

A right proper invasion
advancing with
do-gooders and activists

Folks who vote no on guns

And worst of all
the skiers and snowboarders
Sizing up your mountains
and declaring them lacking

You'll be humiliated
Ruined
Less cowboy
More yankee

Your red
will ombré
to Colorado's
competitive purple

It is your destiny,
Wyoming
Join us
on the middle ground

You got it right
with women's rights
Now you just need
to get on board with

Blacks and Muslims
LGBTQIA
immigrants
and vegans

C'mon,
you know you want to
Together we'll make fun of
Nebraska and Utah

Our shared neighbors
still glowing red
Blushing wallflowers
at the grand old party

We'll be the cool kids

Progressive

The ones who knew about the band
before they were on the radio

Wyoming,

Colorado is your future

Join us now

and flourish
