

Planning Stage

Content

The app contains

- **User homepage:** Details of the enrichment center (locations, story of the enrichment center) and testimonials.
- **Program page:** Consists of all of the classes in the enrichment program. Users can browse for classes, using the filter to search for classes according to the classes categories, day, time and price.
- **Registration page:** For users to register for a class
- **Payment page:** Mode of payment
- **My Classes page:** The classes that the users have enrolled, which includes the schedule, venue and payment status
- **Enrolled Class details page:** Details of one of the classes that the user has enrolled. The user has the option to change the slot or cancel the booking if they are not available on the day they initially planned to attend the class.

Target Users

The app is targeted towards Post-Secondary young adults and career newbies who have artistic and creative mindsets. The age range will be 17-25 years old.

Context of use

Device: Smartphones

Mobile Operating System: iOS & Android

Tasks: Browsing, searching, checking and registering classes during free time

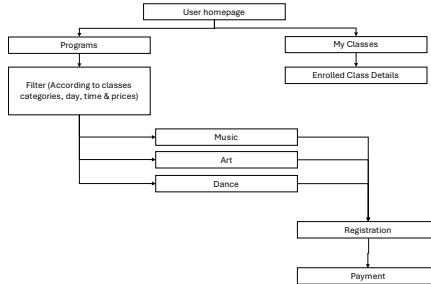

Connectivity: Wi-Fi and Mobile Data

Payment Mode: Credit/Debit cards

UX interactions

Design patterns

- Carousel
 - Programs page, where users can scroll through various programs.
- Drop list
 - Programs page, where users can use it as a filter to search for classes according to the categories (Music, Art and Dance)
 - Registration page, where users can view the time slots to register
- Lightbox
 - Registration page, where the "Class Available" box will appear when users tap on the "Check Availability" button
 - Vocal Training Details page, where the "Cancellation Done" button will appear when users tap on the "Cancel Class" button
