

AY2023 T2039C Course Work F Camera Script

Item	Video	Audio	Duration
1	CG 	(welcome to the stream)	
2	MS(camera 1) make sure face can be seen properly, not blurred 	Introduction (Hello everybody, welcome to the stream, so glad that you could join me today, we are going to be playing a guessing game! Isn't that exciting? Who here likes guessing games? Great!	
3	Brower source 	Then you're going to love today's stream then, shall we get started?	
4	MS(camera1) make sure face can be seen properly 	Switch screens to one with subject (watch video, improvise, ask viewers questions) After finishing all the vids (That's all we have guys, now you must be wondering why I decided to do all this right? Well, it's because my company, wanted to do a survey about whether engagement in streams can help improve stream quality or not. So! On a scale on one to ten, how engaged would you guys say you	

5	CG 	<p>were on the stream? I see most of you have given it a pretty good rating! So, you see, people tend to sway towards streamers that regularly include their audience in streams because it creates a joyful atmosphere between both parties, making the experience more fun and memorable. Isn't that interesting? Alright that's all for today folks, thank you guys so much, you've have been a great help and a great audience today, hope to see you all again soon! Goodbye!</p> <p>(Switch to end credit outro)</p>
