

Mason Neville

FPos: RF

Last seen: 5/3/2025

Grades

Hitting Ability:

P - 30

F - 40

Comments: Balanced setup with a leg kick load and plenty of bat speed. Does a good job of lifting the ball. Geared to pull but does have the ability to use all fields. Adjusts at the plate throughout the game.

Plate Discipline:

P - 35

F - 40

Comments: Stands in and takes his cuts. Has a history of swing and miss. Could improve with quality reps as he does have aptitude and has cut down on K rate since last year, but concerning as K rate goes up typically 13% first year in pro ball.

Raw Power:

P - 60

F - 65

Comments: Hit mostly line drives with backspin to opposite field in BP, launched two pull side in-game homers. Undeniable juice, mostly to pull side. Present strength

Power Production:

P - 45

F - 55

Comments: Will need to cut down on strikeouts to reach in-game power but when he makes contact the ball jumps off the bat.

Fielding:

P - 45

F - 50

Comments: Makes most routine plays routinely. Good instincts to make plays.

Range:

P - 45

F - 45

Comments: Gets to most of what he should. Since he is a below average runner will probably end up in a corner OF spot.

Arm Strength:

P - 55

F - 55

Comments: Flashes above average arm strength. Best throws have carry.

Accuracy:

P - 50

F - 50

Comments: Most throws are on target, on-line and accurate

Running Speed:

P - 30

F - 30

Comments: 4.4 seconds down the line, below average runner but it doesn't impact his game. Plays the game at the right pace.

Base Running:

P - 45

F - 45

Comments: Stole 9 bases this season and 8 last season. Seldom base stealing threat but will snag a few, instincts on the base pads. Won't clog bases

Baseball Instincts:

P - 45

F - 50

Comments: Knows his role, alert in the field w/good reflexes, knows the game well.

Body:

P - 60

F - 60

Comments: 6'3, 210, Lean, muscular, athletic body. Square shoulders, lean torso, narrow hips with muscular legs.

Athleticism:

P - 50

F - 50

Comments: Strong and athletic kid.

Summary: Athletic left-handed hitting fourth corner outfielder with a power-over-hit profile. Struggles making consistent contact are what will hold him back from being an everyday player. Has a history of swing and miss but has shown he's capable of making adjustments at the plate. Present plus raw power could translate to strong average power production. Below average runner but above average arm will play well in right field. Shows aggression on the field and is a gamer.

Future Role: C1

Probability: Fair

Dollar Comfort: \$600k

Probability Explanation: Needs to touch the ball more to reach C1 potential, but if he cuts down on swing and miss could be an impact bat.
