

# PLAYER MATCH REPORT ON: **SORBA THOMAS**

## GAME VIEWED:

**WALES vs NORTH MACEDONIA**  
**(18.11.25)**

### PLAYER MATCH INFO:

- Didn't start the game as expected
- Introduced off the bench on 64 minutes
- Started on opposite wing (RW) than he plays for his club Stoke.

### POSITIVE ASPECTS OF PERFORMANCE:

- Showed versatility, playing on the opposite flank to normal, in a winger role.
- He tracked back when he/team lost possession
- Puts tackles in to try & win back the ball
- A quick player with a burst of pace
- Quick feet & Skilful
- Showed intelligence on the ball
- Looks to pass forward
- Good movement, likes to play 1,2's & make a run in behind
- Stays wide, to stretch the play & give width to the team, creating space inside
- Likes to deliver an early cross
- He takes a quick throw in, to keep up attacking momentum
- Takes set pieces, the 7<sup>th</sup> goal came from his in-swinging corner

### NEGATIVE ASPECTS OF PERFORMANCE:

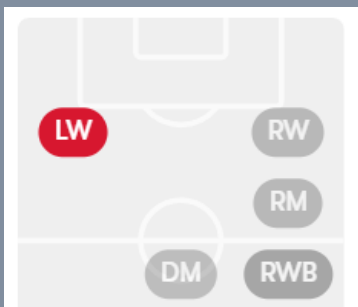

- Only played from 64 minutes onwards
- Very one footed
- Gave the ball away on the odd occasion

MATCH RATING: Positive performance considering time on the pitch (B)

### SUITABILITY FOR AFC BOURNEMOUTH:

In my opinion Sorba would fit into the style of play that Bournemouth employ, being used to the formation, player positions & patterns of play. But, in my opinion he would likely be a back up player for the 1<sup>st</sup> team, due to better players already at the club.
