

# PLAYER MATCH REPORT ON: **NECO WILLIAMS**

## GAME VIEWED:

**WALES vs NORTH MACEDONIA**  
**(18.11.25)**

### PLAYER MATCH INFO:

- Started/finished his match in the RB position
- Played until subbed on 82 minutes
- Didn't show any signs of injury, going off the pitch

### POSITIVE ASPECTS OF PERFORMANCE:

- Played in an RB position when team out of possession & more of an RWB position when team in possession
- Pushed up when team in possession to support attacks & RW team-mate
- Gets up to the penalty area in attacks
- Will overlap RW on RHS to cross into box
- Showed different lengths of passing ability
- Attempts long diagonal passes to winger on opposite flank
- Has decent pace
- Will track back to fulfil defensive duties
- Plays direct balls down the RW for winger to run into the channel
- Takes quick throw-ins on RHS
- Nearly scored on 34 mins, after a direct run into the box. Shot on target, saved by GK.

### NEGATIVE ASPECTS OF PERFORMANCE:

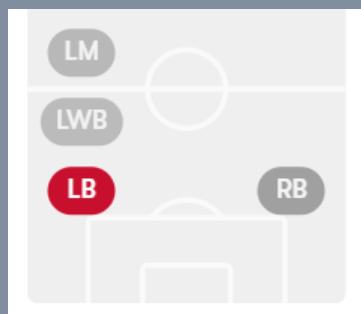

- Seemed very one footed (Right)
- Played a lot of safe passes, inside & backwards. This improved after Wales had the lead
- Gets caught out of position, being too high up the pitch on a few occasions

MATCH RATING: A decent performance, was reliable at RB/RWB. Didn't last the full 90 mins (B)

### SUITABILITY FOR AFC BOURNEMOUTH:

In my opinion, Neco would add competition for a 1<sup>st</sup> team place in the Bournemouth squad. But his purchase cost might not be worth the outlay, for a player not guaranteed to start games.
