

Take a closer look at your vision benefits

Your Independence Blue Cross vision program* provides you with comprehensive benefits for low out-of-pocket costs and is an important part of your preventive health care. Take full advantage of all it has to offer.

Eye care is an important part of your well-being

An eye exam helps provide early detection of vision problems as well as systemic diseases such as diabetes and hypertension. In addition to regular vision exams, covered services like refraction, glaucoma screenings, and dilation can help paint a picture of your overall health.

Find a provider that's right for you

The nationwide provider network includes more than 40,000 ophthalmologists, optometrists, and regional and national retailers no matter where you live.

Access your benefits online – ibxpress.com

Manage your vision benefits online, check eligibility, locate a participating provider, view the Davis Vision Collection of frames, and more.

* Administered by Davis Vision, an independent company.

Choose from an extensive frame collection

We offer a collection of stylish, contemporary frames that are available at most participating providers.

- **Fully covered.** Most of the frames in the collection are covered in full. Other frames are offered to you for only a small copayment.
- **Designer brands.** The frame collection features over 200 of the latest frames in an extensive variety of sizes and colors from designers like Candie's®, Elizabeth Arden®, Perry Ellis®, Steve Madden®, and many more.
- **One-year warranty.** Every frame or lens purchased at a participating provider is backed by an unconditional one-year breakage warranty for repair or replacement.

You can also receive contact lenses instead of frames for a low price.

Laser vision correction services

Receive up to 25 percent off the participating provider's usual and customary fees, or 5 percent off any participating provider's advertised specials on laser vision correction services.

Replacement contact lenses

Through Lens 123®, a free mail-order program, you may receive replacement contact lenses offered at guaranteed, discounted prices.
