

Home Additions in North Wales, PA

A garage, sunroom, home office, and additional bedroom are what you can do with it. Extra space, increased property value, and personalization are the reasons for adding one.

A home addition is a blank canvas of space. It can be an extension that widens small rooms or a room addition your home doesn't have. Regardless, A&Z General Contractors can turn your home into a perfect fit with custom additions for the North Wales PA area.

Turn Your Home into a Perfect Fit with Custom Additions

A custom home addition gives you the necessary space to complete your home. On the outside, we focus on cohesion. We use building materials in the correct color to blend the extension with the rest of the exterior. On the inside, we focus on customization. We want the home addition to blend in with the interior, but we also want the room to have your fingerprints. Our North Wales PA contractor and design team excels at crafting a space based on your input.

Our contractor masters cohesion and customization through layout and lighting. A good layout handles traffic flow from one room to the next. Also, a person should move around the room without bumping into others sharing the same space. Lights illuminate the room and connect it to the outdoors. A mix of natural and artificial light is best. We complete the North Wales PA project with home upgrades to fit your family's needs.

Create More Space With Our Home Renovation Services

If you prefer to create more space with our home renovation services, our North Wales PA team can do that too. Our full renovation services rework outdated layouts, incorporate the latest technology and trends, and add furniture, color, and accessories for cohesive and refreshed results. In other words, we take the home addition strategy throughout the house to add much-needed breathing room to a crowded or cramped home. With an assessment from the contractor, your ideas, and our expertise, your home will feel custom-made for you.

We also handle basement, kitchen, and bathroom remodeling in North Wales, PA to make the room more functional and spacious. Basements also add significant space in an unused place without adding square footage. That space adapts into a guest room, a den, a game room, a home theater, a bar, and more. A basement contractor, bathroom expert, or kitchen remodeler in North Wales, PA will survey the room and suggest the necessary improvements to achieve this.

Home Upgrades to Fit Your Family's Needs

When our contractor adds home additions in North Wales, PA, we add new, functional, and durable home features such as appliances, lighting, furniture, flooring, fixtures, and built-in storage. The features in the home addition should suit your lifestyle now and in the future. It should accommodate lifestyle changes like children or parents leaving or returning to the home. Unless it's essential (kitchen, bathroom, laundry room, garage,

etc.), the addition should adapt to home needs. For example, the room can function as a bedroom, a gym, or a home office when necessary.

From an expanded existing space to a new room, A&Z General Contractors will work hard to bring your dream home addition to life. With over 20 years of experience serving North Wales PA residents, we value precision, artisanship, customer satisfaction, and high-quality materials to build dreams and create legacies.
