

HELLO MELLOW

Get into the spirit of the season and warm up your home with delicious autumnal tones

With the weather giving way to cooler days, it's time to bring some warmer shades indoors with a palette of caramel, amber, rich red and burnt orange to create a cosy, comforting home environment.

Find inspiration in autumn fruits, veg and foliage, such as berries and pumpkins, falling leaves, and vibrant sunset tones.

Here are some simple ideas to give your living space a seasonal revamp.

GET RICH QUICK

Choose bold burgundies and mellow maroons for your kitchenware and tableware for a sophisticated seasonal update, with a touch of gold for added luxury.

This range starts from £35 for the casserole dish from Dunelm – and will see you through the festive months, too.

TABLE TALK

Scatter pine cones, fallen leaves and dried fruit among place settings for an eye-catching dinner party tablescape.

To enhance your seasonal display, opt for a dining set with subtle autumn motifs, such as this one with stencilled golden pumpkins.

SNUGGLE UP

Nothing keeps you cosier on a cool evening than curling up with a fluffy blanket.

This harvest faux mohair throw has autumnal forest green, burnished bronze and warm reds to blend in perfectly with your warm and earthy autumn décor, and costs just £7 from Home Bargains.
