

FLORAL DISPLAY

If real pumpkins are a bit too Halloween-y for you, take a more understated approach by incorporating shades of orange in a subtle way. This artificial carnation set, £4, and berry pick, £3, by Hobbycraft will bring cheer to any mantelpiece or shelf.

GLOW FOR IT

The right lighting will take your pumpkin theme to the next level. Cleverly placed candles and lamps that give off a soft glow will make your home feel super snug. Add mushroom ornaments and seasonal wreaths to create the impression of bringing autumn inside.
