

WORKSHOP INFORMATION

[Paid Workshop] The World We Will Build: Make Your Own Mini Diorama!

\$15/ pax | 1 hr | Mix-Media Diorama

Step into the year 2225 and bring your imagination to life! Inspired by The World We Will Build installation, this creative, hands-on workshop invites children to design and build their own miniature diorama of a futuristic home. Using paper boxes, coloured papers, paint markers, and clay, participants will craft imaginative interiors that reflect their dreams for the world of tomorrow.

What might our homes look like in the future? Will they feature friendly robots, floating gardens, or familiar technologies reinvented in surprising ways? Guided by Art Wonderland's experienced facilitators, children will explore ideas of innovation, sustainability, and creativity, transforming small boxes into vibrant worlds that tell their own stories.

An immersive hour of artmaking and storytelling, this workshop invites young creators to dream, design, and build the future—one diorama at a time.

Suitable for ages 4-12. All materials provided.

Timing: Multiple slots throughout the day (book through Peatix or walk-in)

Fringe Workshop 1: The Future We Will Grow

Free | 5–10 mins

Children are invited to step into the year 2225 and imagine a Singapore filled with green cities, caring communities, and boundless creativity. In this interactive activity, they will write or draw their hopes on leaf-shaped paper, dreaming up ideas like “floating parks above the sea” or “buildings that grow food for everyone.” Each leaf will then be added to the Tree of Wisdom, creating a shimmering canopy of collective dreams — a living artwork that celebrates the imagination, empathy, and hope of our future generations.

Suitable for ages 4-12. All materials

Timing: Throughout the day

Fringe Workshop 2: Build Your Future Self

Free | 10–15 mins

Step into the year 2225 and bring your imagination to life! In this hands-on puppet-making workshop, children create playful avatars of their future selves—from engineers and doctors to artists, actors, and dreamers yet to be named.

Participants will cut, decorate, and assemble their puppets with colourful details and movable limbs, giving each creation a unique personality and story. Fun, quick, and inspiring, this workshop celebrates creativity, aspiration, and self-expression, inviting every child to dream boldly about who they might become.

Suitable for ages 4-12. All materials

Timing: Throughout the day
