ABOUT ME

I am a Year 3 student at Republic Polytechnic pursuing a Diploma in Design for User Experience. I value honesty, respect, and the courage to step out of my comfort zone to grow as a designer and individual.

Fueled by curiosity, creativity, and a passion for design, I see design as more than visuals. It is about shaping experiences that resonate, bringing purpose to life, and uncovering the core of every project.

I am passionate about UX and UI, spatial, and fashion design, and I enjoy enhancing everyday experiences through thoughtful and intentional design. I am driven by continuous learning and personal growth, always seeking opportunities to improve and innovate.
