Bruno Durdov - 176cm - Left footed - Winger - December 11th, 2007

1. Dribbling

- **Strengths:** Direct when receiving wide, drives at goal, combines well in short one-twos.
- **Concerns:** One-dimensional, always onto left foot, rarely beats man on outside.

2. Crossing

- **Strengths:** Clean left-footed technique, dangerous whip, volume crosser.
- **Concerns:** Decision-making inconsistent, often crosses too early without scanning; some fail to beat first man.

3. Playmaking

- **Strengths:** Links with FB/CM in quick combinations, positive intent to progress.
- **Concerns:** Still raw in choosing moments — can waste possession by forcing delivery.

4. Running in behind

- **Strengths:** Times runs well when he does attempt them, effective on far-post arrivals.
- **Concerns:** Rarely makes the movement, prefers ball to feet.

5. Finishing

- **Strengths:** Ball-striking technique is clean, capable of cutting inside and hitting goal.
- **Concerns:** Sample size small, end product inconsistent.

6. High pressing

- **Strengths:** Willing to engage, closes down quickly.
- **Concerns:** Lacks timing/discipline, can press without effect and leave space behind.

7. Tracking back

- **Strengths:** Shows work ethic, makes recovery runs.
- **Concerns:** Defensive actions sloppy, goes to ground unnecessarily, loses duels.

Projection and Suitability

Profile: Direct, left-footed winger who thrives cutting inside and delivering dangerous crosses. Strong ball-striking and technical quality make him a consistent creator from wide areas. Suited to dominant, possession-based sides that rely on width and delivery. Needs to diversify 1v1 game, refine decision-making in the final third and improve his defensive work.

Level: Developmental prospect with potential to become a reliable rotation winger in a top European side. Ceiling as a starting option if he expands beyond his left-footed reliance and adds consistency in his end product.

Development Areas:

- Improve defensive tracking and discipline in recovery.
- Add variation to dribbling (outside movements, right-foot usage).
- Sharpen decision-making when crossing/shooting to avoid wasted possessions.

Crossing - **A**

Playmaking - **B**

Running in behind - **C**

Finishing - **D**

High pressing - **B**

Tracking back - **B**

Durdov is a left-footed right winger who excels at delivering dangerous crosses and can beat his defender with direct dribbles or quick combinations with his teammates. He plays with high energy and always looks to progress play, but is still very raw—his decision-making and end product need refinement to make him a more consistent attacking threat.
