# CO-STAR COUPLES

**T**inseltown's biggest on-set scandal happened during the filming of *Mr And Mrs Smith*, when Brad Pitt and Angelina Jolie were captured on camera sharing many a tender moment. Nine weeks later Brad and Jen revealed their 'happy' marriage was over, and Angelina was branded a marriage wrecker. But as so many stars meet on set, it makes you wonder...

**Penélope Cruz & Tom Cruise**

★ They denied their secret meetings for months, but finally admitted to having 'a few dates' after Pen showed up at Tom's 39th birthday party in 2001. The two stars first met on the set of *Vanilla Sky*, but after almost three years of lovin', amicably split in January 2004.

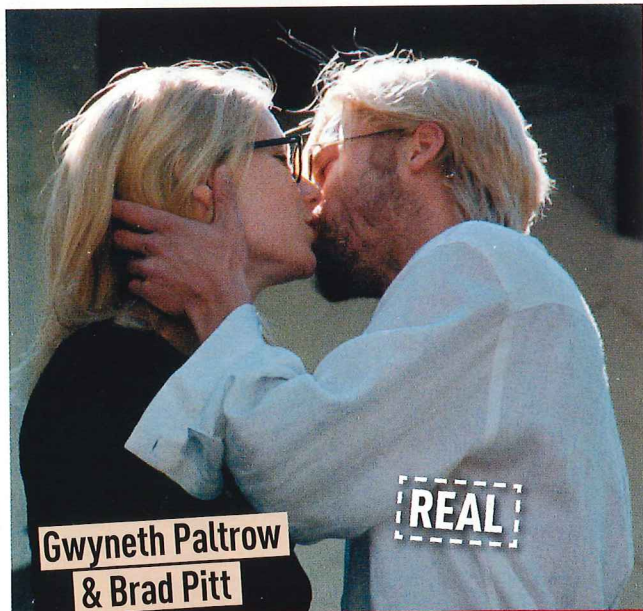

**Penélope Cruz & Matt Damon**

★ The sexy señorita is said to have come between her *All The Pretty Horses* co-star Matt Damon and his partner, Winona Ryder. He gave his light-fingered girlfriend the flick during filming – pity she didn't use her skills to steal his heart instead!

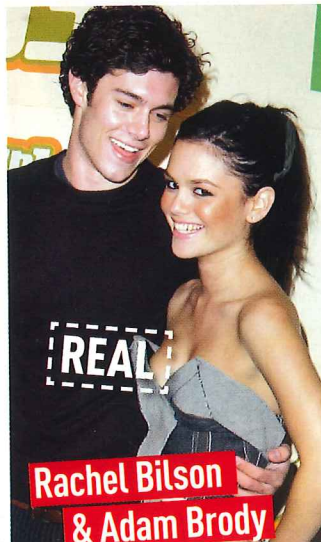

**Penélope Cruz & Matthew McConaughey**

★ She's at it again! The two met on the set of *Sahara*, where Pen received news of her father's heart attack scare, and sought Matt for support. The lovely couple are now engaged! Let's just hope she doesn't star in any films with Brad Pitt...

**Gwyneth Paltrow & Brad Pitt**

★ After meeting Mr Pitt on the set of the 1995 thriller *Se7en*, it didn't take Gwyneth long to ditch her then boyfriend Donovan Leitch and hook up with the beautiful Brad. Gwen gushed, 'I am properly in love for the first time in my life,' and Brad described Gwen as 'his angel'. Engaged in 1996, the relationship ended in 1997, with neither party letting on why.

**Rachel Bilson & Adam Brody**

★ They were *The O.C.*'s original kooky couple who didn't quite hear the director call 'cut!', continuing their pashing off-set. Unlike their characters in the current series, the two are still serious and have just moved in together.

**Jessica Alba & Michael Weatherly**

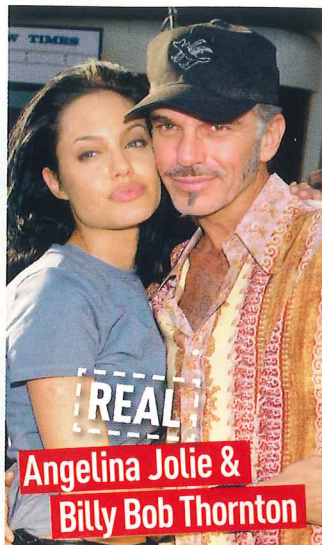

★ The two *Dark Angel* stars were seen disappearing into each other's trailers – and it wasn't to rehearse their lines! The two stayed secretive until they got engaged in 2001. Sadly, they broke up in 2003, and Jess has since sworn off actors.

Despite the age-old warning of 'don't screw the crew', celebs are taking their work home with them – literally! And it doesn't take long for the stories to come out of the woodwork... So what's real and what's just rumour?

**Angelina Jolie & Jonny Lee Miller**

★ After falling for each other on the set of 1995 film *Hackers*, Angelina and Jonny wed soon after. Ange strutted down the aisle in rubber pants, with Jonny's name scrawled in her own blood on the shirt she was wearing. Eek! But the marriage lasted just over a year.

**Angelina Jolie & Billy Bob Thornton**

★ They first met on 1999's *Pushing Tin*, where they played a mismatched married couple. It wasn't long before they became known as Hollywood's oddest couple, after tying the knot in 2000 – with vials of each other's blood around their necks! But the couple split in '02.

**Angelina Jolie & Colin Farrell**

What is it with this woman? Angelina must've made quite an impression during the filming of *Alexander*, to have Colin Farrell describe her as 'his perfect woman'. At the film's premiere after-party, it's alleged the two were caught canoodling. We're not sure if Col had bad breath, because Angelina was rumoured to have run off with ex-hubby Jonny Lee Miller.

**Jennifer Aniston & Vincent Cassel**

★ Brad who? Jen wasn't down in the dumps for long over Hollywood's most headlined split. Word on the street linked her to her *Derailed* co-star Vincent Cassel. We guess distraction is the best medicine for getting over a break-up!

**Keira Knightley & Adrien Brody**

★ No jacket was required for these two co-stars after they reportedly got cosy during the filming of *The Jacket* last year. Adrien was furious at the rumour, saying they both had partners at the time and nothing happened. Touchy!

**Sienna Miller & Jude Law**

★ Jude confessed he fell for Sienna big-time on the set of *Alfie*: 'It blew me away when I first saw her on camera, she's extraordinary'. He showed he meant business by proposing to her on Christmas Day last year. Lucky cow – we're bitter and jealous, OK?!

# Kate vs Sienna

## Battle of the boho!

Kate Moss has ruled the roost as *the* boho style icon for years, so how is she coping with Sienna's takeover bid? We got our junior fashion editor Lisa Stern to size up the style rivals

Black dress

JULY 29, 2003

JUNE 25, 2004

'Sienna is my fave of the two in this outfit. The cool aviator-style reflector shades and chunky studded belt oozes boho/punk '80s style. I prefer Kate's footwear though - those are beautiful sandals!' says Lisa.

Once a conventional label lover, who was never seen without her \$2,300 Balenciaga bag, Sienna Miller is now hot on the heels of Kate Moss as the UK's hippest gypsy queen. And Kate is 'not happy, Jan!' 'The whole thing about Sienna looking like Kate Moss is really funny and must annoy Kate,' a source on the set of *Alfie* said. 'Kate does think Sienna copies her - pulling two quite different pieces of

clothing together.' Fast turning into a copycat fight, it's alleged Kate freaked out when Sienna wore a pair of Birkenstock sandals the day after Kate was seen in hers, snapping, 'That bitch is wearing my shoes!' Now Sienna chooses vintage over Vuitton, Kate's said to be on the hunt for a new groove.

'Kate says Sienna never used to dress like that; she's moved away from the boho look because of it,' adds the insider.

We'd like to see Ms Moss pretending happy pants are back in, to see if Sienna, and the fashion world, follows!

Fur vest

DEC 16, 2003

NOV 12, 2003

'It's hard to tell these chicks apart! I'm a big fan of Sienna's classic blue jeans compared to the faded ones Kate's wearing. Sienna looks a little more stylish - and is the first to debut the outfit for a change!'

3

Ponchos

OCT 14, 2002

DEC 6, 2004

'I'm not a big fan of either of these outfits, but I prefer Sienna's look. Colour is so important - especially in winter. Large bags are a great accessory too - funky, fun and functional!'

4

White blazer

OCT 14, 2004

JAN 7, 2005

'A fitted blazer is a hot look when worn with jeans. Kate cottoned onto this a few months before Sienna though, and made the look her own with a scarf and a cute clutch bag.'

5

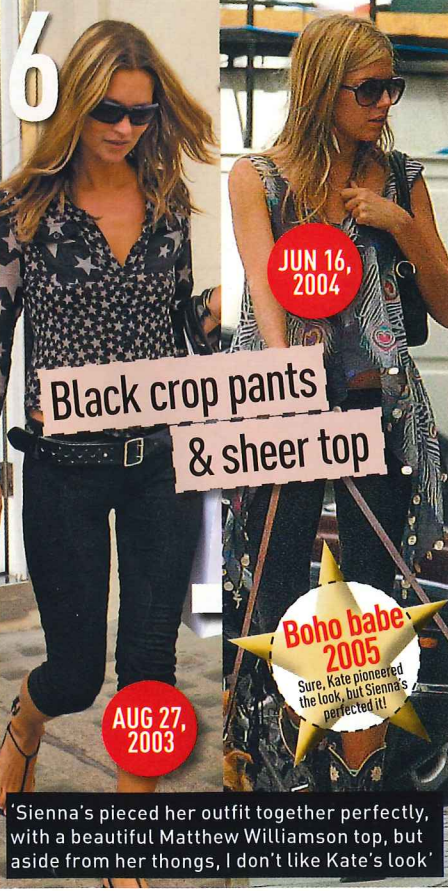

All-black

JUN 2, 2003

JAN 5, 2005

'They both look sexy by flashing a bit of leg, but Sienna's boots get her my thumbs up - much nicer than Kate's Betty Boo heels!'

6

Black crop pants & sheer top

JUN 16, 2004

AUG 27, 2003

Boho babe 2005

Sure, Kate pioneered the look, but Sienna's perfected it!

'Sienna's pieced her outfit together perfectly, with a beautiful Matthew Williamson top, but aside from her thongs, I don't like Kate's look'

SHE'S GOT A BIG HEART

★ The New York-born beauty has shuffled her hectic Hollywood schedule to be involved in Make Poverty History – a new campaign aiming to improve the lives of millions of poor people worldwide. She explains: 'To make it the most powerful movement the world has ever known, we need all citizens around the world to stand up and be counted'. Wise words from one so young.

SHE'S A CLASS ACT

★ Scarlett's subtly sexy style steers clear of trashy trends. She admits, 'I always check in the mirror to make sure nothing is see-through'. She also has impeccable taste in films. Her latest flick *In Good Company* is yet another notch on her belt of credible movie roles. She plays Alex, a uni student trying to convince her over-protective dad (Dennis Quaid) she's grown-up.

SHE'S MISS MATURITY

★ Older men are at the top of Scarlett's wish list, as she admits she couldn't imagine dating anyone under 30. It seems that life imitates art, as she shares an intimate on-screen relationship with John Travolta in her new flick *A Love Song For Bobby Long*, and with older man Bill Murray in *Lost In Translation*. **NW**

# 'I LOVE MY BODY'

Your best body ever!

*(Even though it's not perfect!)*  
Celebs with flaws – and proud of them? More of it, we say...

044

## *Kate Winslet*

'My stomach is crinkly and my boobs are like the ears of a dog. That's what happens after having two children. But I love it – they're marks of what I've been through.'

## *Natasha Bedingfield*

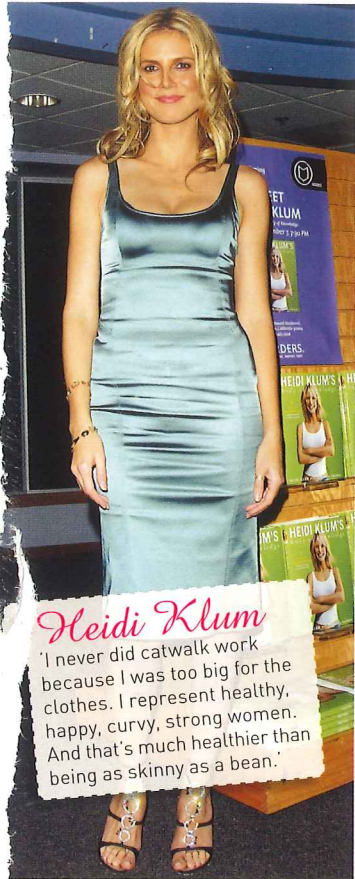

'I've never looked in the mirror and wished I was skinny. I'm athletic and the main thing is I'm healthy.'

## *Drew Barrymore*

'God made me voluptuous – why go against what he decided? My limbs work, so I'm not going to complain about my body shape.'

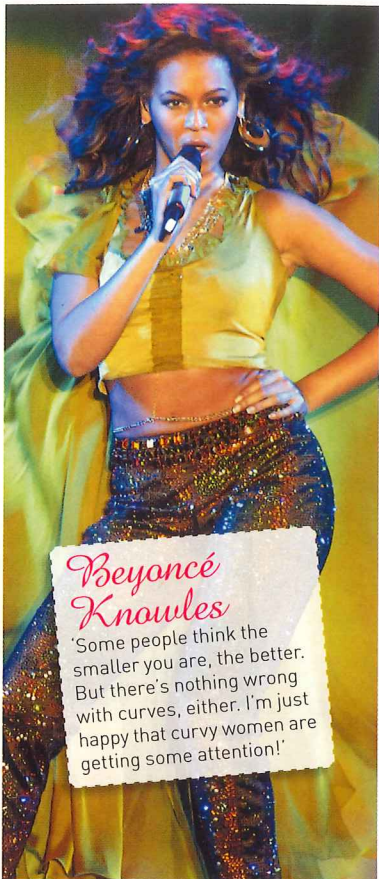

## *Jennifer Lopez*

'I love my butt and I've never been ashamed of it. I guess that's made it a focal point.'

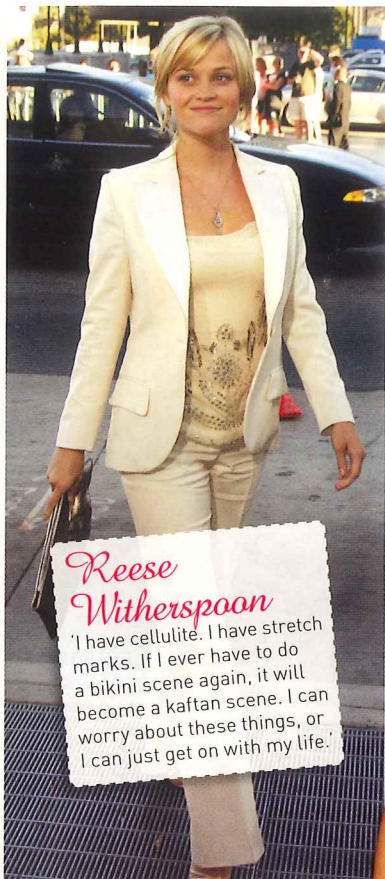

**Heidi Klum**

'I never did catwalk work because I was too big for the clothes. I represent healthy, happy, curvy, strong women. And that's much healthier than being as skinny as a bean.'

**Beyoncé Knowles**

'Some people think the smaller you are, the better. But there's nothing wrong with curves, either. I'm just happy that curvy women are getting some attention!'

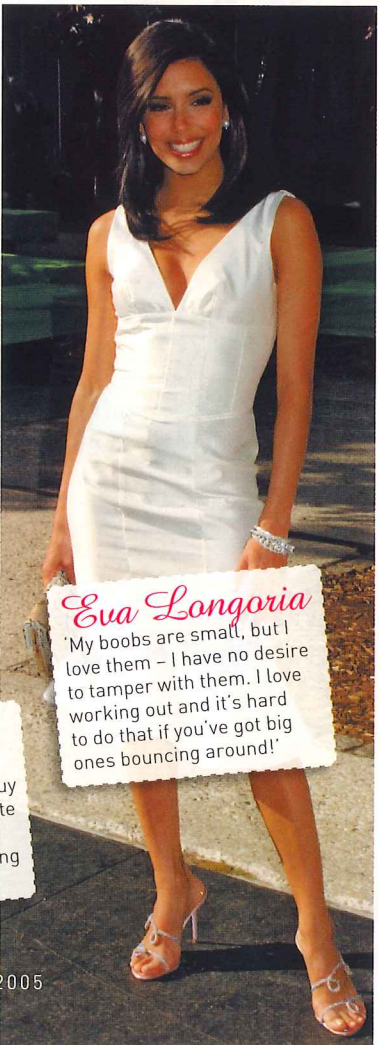

**Reese Witherspoon**

'I have cellulite. I have stretch marks. If I ever have to do a bikini scene again, it will become a kaftan scene. I can worry about these things, or I can just get on with my life.'

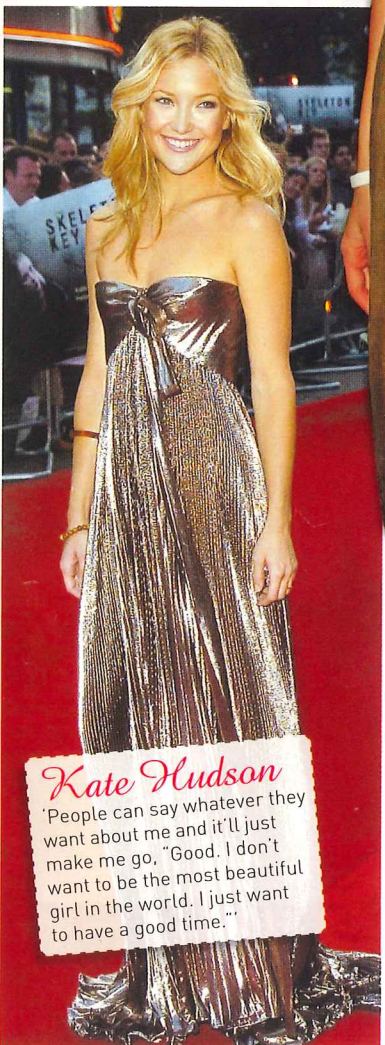

**Salma Hayek**

'I refuse to be a part of this perfect-body syndrome. One guy I dated said, "You can't compete with other actresses because they're all in shape and working out". I said: "Goodbye!"'

**Eva Longoria**

'My boobs are small, but I love them - I have no desire to tamper with them. I love working out and it's hard to do that if you've got big ones bouncing around!'

**Kate Hudson**

'People can say whatever they want about me and it'll just make me go, "Good. I don't want to be the most beautiful girl in the world. I just want to have a good time."'

**Scarlett Johansson**

'I'm slim but I've got curves - and I like being that way. I think it's really shocking how skinny people are in this industry.'

It's not cheap to look this good – here's how much celebs really pay
