## PROFILE SUMMARY

I am a Sonic Arts student equipped with various media skills such as recording, live sound reinforcement, mixing, and video editing, I am a strong communicator with an open-minded, who strives in a collaborative approach. Passionate about sound design, I enjoy creating meaningful audio for media such as games and videos. I have competed in the #YouthAgainstScam and DrugFreeSG video competitions, strengthening my storytelling and audio post-production skills. I am now seeking an internship where I can support creative initiatives and gain hands-on experience
