

TIM NG JING KAI

AUDIO ENGINEER

PROFILE

I am a student currently studying in the diploma of sonic arts in Republic polytechnic. I am an aspiring audio engineer and is eager to learn all about it. I have been in the events industry for 3 years working on productions such as YungBlud, Bebe Rexha and Stephanie Sun. A hard working individual who is always ready to learn and help around when needed. I take my work very seriously and always put my 100% in everything i do. i do my best to follow instructions to the best of my abilities and can be very flexible and adaptable when need be.

WORK EXPERIENCE

ELEVEN PRODUCTIONS PTE LTD

DEC 2023 - PRESENT

FREELANCE BACKLINE

At Eleven productions I do concerts and big scale events for artists, radio stations and local bands etc. in my line of work I mainly work with music instruments where I set them up during pre-production and work closely with artists or band members to get their desired goal for the show.

What I have done:

- Enhanced Stefanie Sun's performances as a prominent Singaporean Mandopop artist through proficient setup and assistance.
- Collaborated with multiple artists at YES933 radio station events, providing instrumental and audio support on stage.
- Supported Chinese Canadian artist and actor Kelly Yu in the realm of C-pop by providing expertise in musical instruments. Collaborated closely with Kelly Yu to enhance musical performances and elevate the overall artistic experience.

ITC SYSTEMS GLOBAL

SEP 2023 - NOV 2023

AUDIO TECHNICIAN INTERN

I mainly was an intern under the audio department where I was stationed mostly in Capitol theatre and have done multiple events inside the theatre. I have also done shows in the indoor stadium and bayfront event space where I played a big part in the audio team to provide support for the company's festival.

What I have done:

- Supported Korean artist Lee Young Ji by being her follow spot and setting up her audio equipment.
- Help set up RF systems and audio equipment for Show Lo Evolution tour in Indoor stadium.
- Worked in the audio team for IMC's One Love Asia Festival Singapore where I worked as an assistant A2 and played a big part assisting the audio team and occasionally led some tasks with the team.
