EXPERIENCE

FLOWER OF LIFE PRIVATE LIMITED (IAMinVISIBLE) (Mar 2026 - July 2026) INTERNSHIP | Video Editor

During my internship here, I was mainly involved in post-production. My responsibilities included editing videos, colour grading, subtitles, organising footages and coming up with the storyflow of each project. This internship encouraged me to put what I had learned in school to practice, while introducing me to the expectations of working in the media industry. This experience was indeed very different from completing school assignments as I strongly felt that every project had its purpose, which came with real clients and audiences. Through my experience here, I learned that creating a good video is not only about its technical skills but also about understanding its message.

Youth Corps Community Initiative (YCCI) INTERNSHIP UNDER IAMinVISIBLE | Volunteering

My internship involved attending initiatives that were organized by Youth Corps Community Initiative (YCCI). As part of my attachment, I participated in volunteering sessions such as volunteering at Singapore General Hospital and attending workshops and events organized by YCCI. These experiences definitely allowed me to interact with people from different walks of life, and also people of my age who are interns at different industries.
