## About Us

The name "DOPA" comes from the word Dopamine, a hormone that regulates the excitement and happiness that one feels. Founded on the happy moments that ice cream brings to us, it is our dream to create a space where such happiness can also be conveyed to everyone through our nut based gelato.

We hope that DOPA can be a place where people find joy and happiness from the range of artisanal in-house nut based gelato and that it can be recognised as the location with the best pistachio gelato. It is our vision for every customer to be happy after having our in-house gelato.
