Education

Mechanical Technology

ITE College Central
2016 - 2018

Marine Engineering

ITE College Central
2018 - 2020

Design & Media Republic Polytechnic

2023 - ongoing

Skills

Design & UX

- Wire-framing (Low & Mid Fidelity)
- Interactive Prototyping (Figma)
- User Flow & Navigation Design
- Visual Hierarchy

Software

- Figma
- Reaper
- Microsoft Office

Strengths

- Structured thinker
- Detail-oriented
- Technical problem-solving

Language

English

Malay

Professional Summary

Design & Media student transitioning into UI/UX design, with a background in Mechanical and Marine Engineering. Recently developed a hyperlocal mobile app prototype focusing on structured navigation, user flow clarity, and community-driven task systems. Strong in wireframing, interface refinement, and iterative design thinking. Interested in building intuitive and purposeful digital experiences.

Selected Projects

NearTask – Hyperlocal Mobile App Prototype

Industry Long Form Project | 2026

- Conducted competitor analysis and feasibility comparison
- Designed complete end-to-end user journey
- Developed low-fidelity wireframes and refined visual hierarchy
- Built interactive Figma prototype with map-based task discovery
- Iterated design based on structured supervisor and peer feedback

Work Experience

2019-
2020

Tractor Singapore LTD

Marine Engineering Internship (6 month)

- Maintenance & Repair
- Troubleshooting & Repair
- Safety Management

2020-
2022

Singapore Civil Defence (NS)

FireFighter

- Trained in emergency response and fire safety procedures
- Maintained operational readiness in high-pressure situations
