- UI and UX design
- Wireframing and prototyping
- User research
- Design thinking

## Education

Expected  
in 2026-05

### Design User Experience

*Republic Polytecnic*

As a passionate and dedicated UX Design student at Republic Polytecnic, I aspire to become a successful UX designer. I'm excited to apply my technical expertise and creative abilities to help create innovative, user-focused digital products. My goal is to build smooth, intuitive user experiences that engage and satisfy users by applying the principles of user-centered design into practice. I am seeking opportunities to use my abilities in usability testing, prototyping, and user research to contribute to worthwhile projects and further develop as a designer in a creative and collaborative setting

## Experience
