

Get the most out of Teams with new Copilot innovations

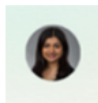

As organizations face increased complexities in remote and hybrid work models, they're looking for innovative AI-powered tools that can facilitate stronger communication and collaboration. Take advantage of the latest Copilot enhancements in Teams to help your employees improve productivity and focus on what matters most.

- **Microsoft Teams Phone:** Have Copilot generate call summaries, highlights, and insights and suggest follow up questions and next steps. Improve the calling experience with automated note taking and suggestions during calls based on the conversation.
- **Microsoft Teams Rooms:** Attribute comments and insights accurately with advanced speaker recognition in every room. Capture meeting highlights quickly and ask Copilot to draft follow up emails and personalized reminders with ease.
- **Microsoft Teams Premium:** Get live translations and captions, intelligent recap, and meeting markers and notes with Copilot. Plus, ask Copilot questions in your preferred language and get key meeting highlights to better understand next steps.
